

# VIDEO EDITING

*"Easy-Cut is exactly what we've been looking for. To me, for a coach doing his own video analysis and editing, this is a practical, affordable tool that is easily understood and used."*

*Scott Cramer Verona Area HS, Verona, WI*

## Easy-Cut Version 3

### Simple, Affordable Multi-Sport Video Editing

- Watch game video on your computer and quickly identify and categorize plays for retrieval, playback and to make cutups. Works for ANY Sport !
- Work with digital video files in a variety of formats (including AVI and Windows Media) - usually requires little or no additional hardware
- Set Precise video start and end points for each play with a "mouse click"
- Set up your own categories for identifying plays, then use the powerful Project Grid and its **sort**, **sequence** and **filter** tools for quickly locating, viewing and organizing plays based on your criteria
- Replay video clips from one game or multiple games, even from different types of video file formats, one at a time or as a continuous sequence
- Create cutups and highlight videos in a number of formats – ready to copy to flash drives, CD's and DVD's or upload to YouTube and other video sharing web site. Create Title Slides using Colors and Fonts to introduce sections of your video cutup.
- Affordable multiple computer licensing - share video between computers.

**NEW – Season Pass, budget-friendly rental options !**
