Video-Enabled Football Scouting and Game Analysis

- Watch Video on your computer and Record Scouting Data at the same time. Also works great for scouting when digital video is not available.
  - Use your own terminology for naming Formations, Plays and more.
  - Powerful search tool for quickly locating plays based on Down and Distance, Play Name, ODK (Offensive, Defense, Kicking), Run/Pass etc.
  - Replay video clips from one game or multiple games, one at a time or as a continuous sequence.
  - Export Video in Windows Media or AVI format for distribution on CD's, DVD's, flash drives, web sites, and more. (with Video Publishing Module)
  - Offensive or Defensive tendency reports - over 100 included !
  - Affordable licensing. Share information between computers.
- Works with multiple digital video formats - often requires little or no additional hardware !
