

Drawing Features

- Draw routes, blocks and other assignments with a large set of drawing tools.
- Instantly flip the offense or defense left or right or above or below the ball.
- Easily display offensive formations or plays against any combination of fronts and coverages.
- Instantly print a playcard.
- Assign a color to a player and his route or blocks.

An Easy Drawing Tool

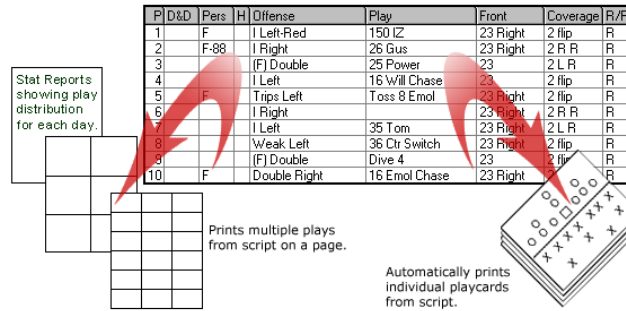

- Draw routes, blocks and other patterns using tools from a drawing template.
- Adjust the direction and length of each line.
- Extend the pattern by clicking a drawing tool and then clicking the end point of a line.

Scripting Features

- Enter practice script into a spreadsheet format.—using “drop-down menus” for Offense, Front and Coverage
- No need to type in the formations. Simply select them from a drop-down list.
- Print play cards directly from your practice script each day.
- Print multiple plays on a page
- Print distributions of offense vs. front, offense vs. coverage, play vs. front, etc.

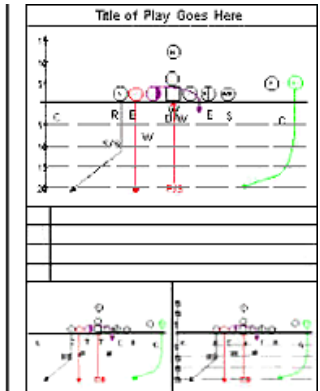

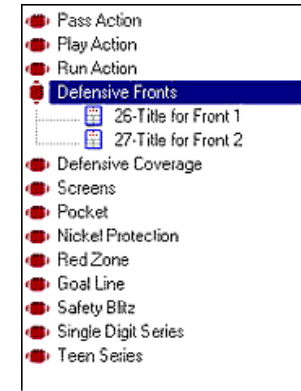

Save hours a day of drawing playcards by automatically printing them from your script.

Automatically prints individual playcards from script.

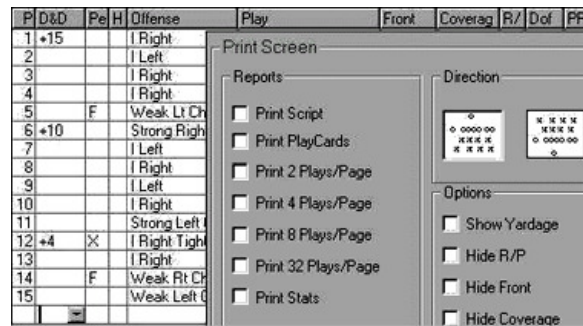

Playbook Features

- Drop plays into boxes on page.
- Word processing capabilities.
- Copy text and tables from other applications.
- Print any page or section of the book.
- Copy pages from one playbook to another.
- Create custom page templates for different style pages. Pro Version only.
- Unlimited number of pages for Pro Version; 75 pages for Youth Version.

Powerful Printing Capabilities

- Numerous print options
- Print a script and its corresponding play cards in one step
- Print play sheets of 2 to 32 plays per page.

Playbook Layout Capabilities

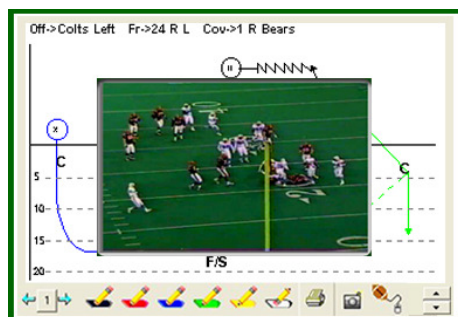

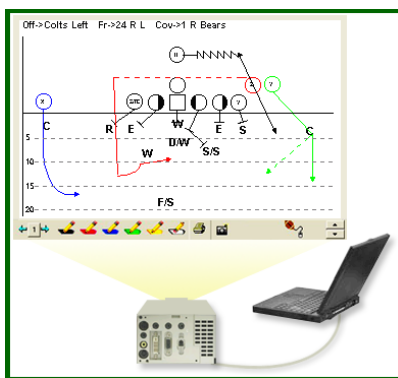

- Organized like a book—with sections and chapters
- Automatically rennumbers pages
- Extensive library of page templates

SLIDE SHOW

VIDEO

- Display any section in the play-book in a PowerPoint-like presentation.
- Connect the PC/laptop to a digital projector and project onto a white-board.
- Use the mouse as a telestrator to do free-hand drawing in different colors.
- If digital video is available, show multiple clips of the play with the play diagram.
- The SlideShow plays digital files supported by Microsoft Windows® Media Player.

Coach's Office ranks among the elite football coaching software systems. Designed originally for an NFL team, the *Coach's Office* user "roster" includes a laundry list of college and professional teams.

Coach's Office will improve the way you work so you'll have more time to coach.

COACH'S OFFICE

INTEGRATED PLAY DRAWING AND MANAGEMENT SYSTEM

"This is the best software program I have ever been associated with. It has truly made a difference in our preparation quality and time management."

**Steve Savarese, Head Coach, Daphne HS, Daphne AL
Undeafed 15-0 State Champions, 14th in the Nation
Alabama Coach of the Year - 2001**

Coach's Office is arguably the **only truly integrated system** for drawing, organizing, presenting and printing Play Cards and Playbooks available. *Coach's Office* also works with a number of Video Editing products to **incorporate Digital Video into Playbooks** and Slide Show presentations! A **modular** system, *Coach's Office* is available in a number of configurations to make it affordable for coaches at any level.

The *Coach's Office* "process" begins when a Formation, Play or Defense is drawn in the **Chalkboard** module. From that point forward, the play drawing is available (via a **drop-down menu**) throughout the *Coach's Office* system.

The benefit of this **unique approach** is most evident in the *Coach's Office Play Script* module—a "**must-have**", **time-saving tool for every Defensive Coordinator**. Together, the Chalkboard and Play Script modules enable a coach to plan a practice and then, literally produce a script and a stack of play cards with a "click of the mouse"!
