

EASY-SCOUT XP Plus is

- **SIMPLE TO SET UP** – Virtually no Setup is required. *Install it and immediately start entering game information.* Other programs may require you to use cryptic codes or select from lists of formations and plays that may be limited, use someone else's terminology and slow you down.
- **SIMPLE TO USE** – Easy-Scout XP Plus is *designed to minimize the time* required to enter scouting data. Use the mouse or the keyboard – whatever you prefer. There are numerous time-saving and “goof – proofing” features that make entering game information fast, reliable and efficient.
- **FLEXIBLE** - Enter plays using *your own terminology.* Enter Cover 2 as Cover 2, Lead Draw as Lead Draw – and so on. Easy-Scout XP Plus *remembers your terminology* “on-the-fly”, reducing typing and increasing the accuracy of your data entry. A new *Search and Replace* feature makes **changing terminology or correcting errors fast and accurate (New in Version 2)**
- **PROVEN** - Easy-Scout products have helped coaches build game plans for 25 years. During that time, many companies and products have come and gone, but *CompuSports and Easy-Scout have passed the test of time.*
- **VALUE** - Easy-Scout XP Plus, like previous Easy-Scout products, represents an outstanding value in software of its kind. Easy-Scout products are *easier to learn, easier to use* and include more useful reports than similar programs - some that as much as twice as much money. *Our many satisfied customers tell us that, and we guarantee it!*

Easy-Scout XP Plus

Football Scouting and Game Analysis Software

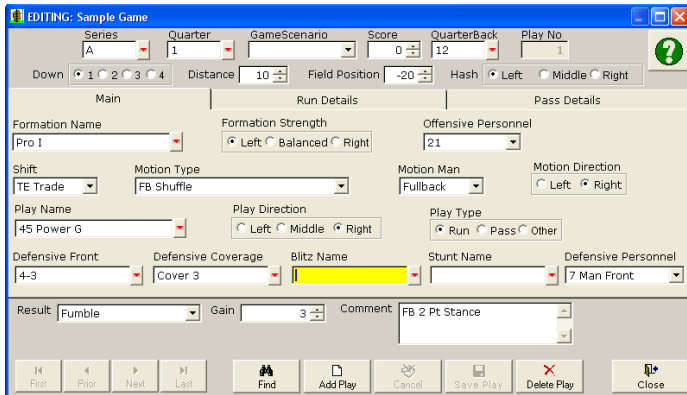

- Since 1984, CompuSports has offered the Easy-Scout line of *Football Scouting software.* Suitable for High School and College football coaches, products like Easy-Scout XP Plus make the *game-planning* process more efficient and effective.
- Easy-Scout XP Plus helps football coaches *collect, organize, manage* and *analyze* detailed information about the Offensive and Defensive “plays” in football games. With the computer “crunching the numbers” a coach will have more time *to USE information to determine tendencies, create better game plans, and win games!*
- There are few things as important to a Football Coach as understanding an opponent's (as well as his own) tendencies. Easy-Scout XP Plus is an easy-to-use “tool” that helps a coach *develop complete, well organized game plans in less time than what is possible using manual methods.*

We *guarantee* Easy-Scout XP Plus will make a difference in any football coach's game planning process!

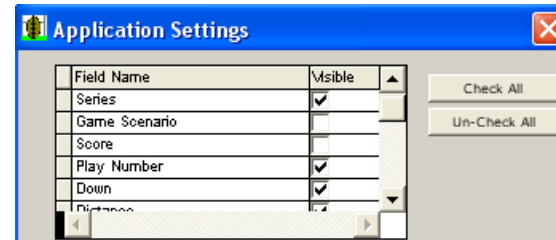

How it works

Easy-Scout XP Plus

Features that make it work for you

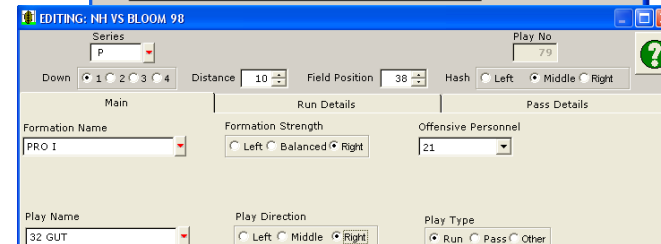

Enter "scouting data" from film breakdown or live scouting sessions.

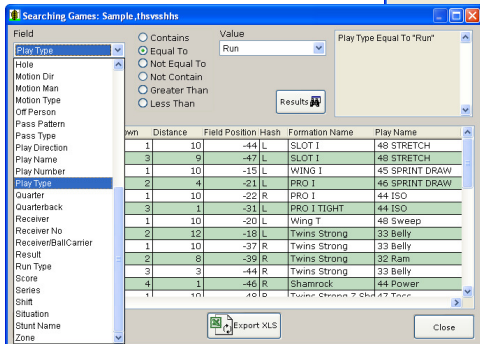

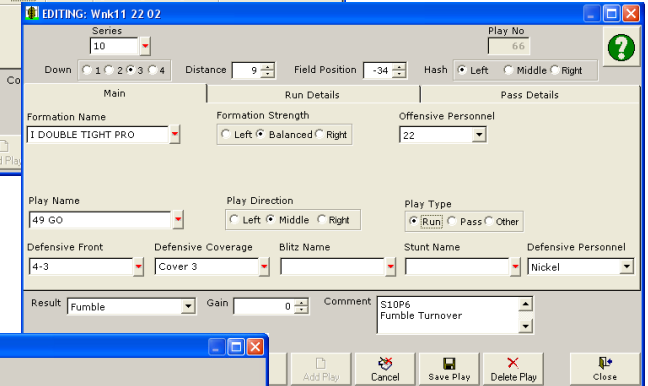

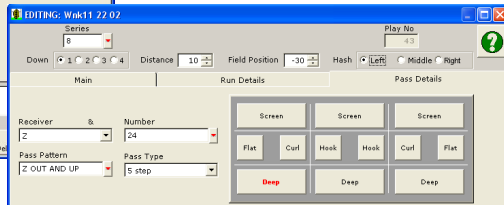

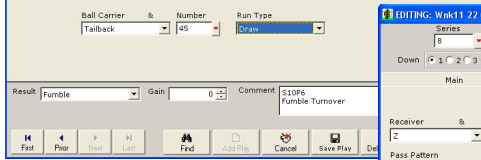

Easily "customize" your Play Entry screen by removing items you will not use. This speeds up data-entry dramatically!

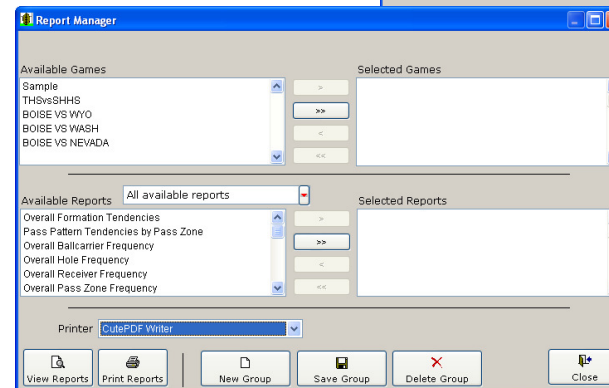

Enter Run and Pass Details - but only if you wish to do so!

To the left and below are two examples of simplified screens that we (and you can) set up in less than a minute!

- Easily Find individual Plays or groups of plays
- Organize and Analyze Plays using the "on-Screen" **"Analysis grid"**
- Export "Search Results" to MS Excel or use to Print Reports
- Print "Filter-Driven" Advanced Reports

- Print or View (on screen) Single or Multiple-Game Reports
- Print Reports using all plays in a game or Print directly from the Analysis Grid
- Print Individual Reports or Groups of Reports
- Create "user-defined" Groups of Reports to streamline the Report Printing Process
